AROUND *the* TOWNSHIP

WPA engineers are acquiring more definite and detailed information on the present underground water supply with relation to salt intrusion and other things which may have a bearing on the future needs of the Alameda County Water District, including water for irrigation and industrial purposes.

Charles S. Haley, consulting engineer for the district, planned the survey initiated last week. The Federal Farm Loan Bank has a particular interest in water conditions as they affect farming lands.

Cooperation of the people of the district with the WPA representatives is asked as the district should be greatly benefitted by the results of the survey.

Dwight Thornburg had a big blowout on the Bay bridge last week. Enroute to Treasure Island to put on an organ recital in the Temple of Religion he was momentarily delayed when a tire blew out and he had to be towed "backwards" into the city. It was a unique view of the bridge, he said, so were his emotions—says he's been feeling hind side before ever since.

Mrs. A. B. Haley of Newark, who will celebrate her 87th birthday on Dec. 6, was one of the interested spectators of the installation ceremonies at the Country Club this week. The installing officer, Mrs. J. E. Thane, has passed her 84th birthday. They say the climate has a lot to do with it.

Mrs. Rose Thomas of Decoto has been attracting attention in the Hall of Flowers on Treasure Island with her exhibit of a rare plant from Chili known as the puya alpestris—a terrible name for a beautiful plant which rises eight feet and is crowned with a cluster of brilliant turquoise blue blossoms with yellow centers.

Each flower holds a teaspoonful of nectar. She is also showing an epiphyllum which blooms only once a year and then at night. Its 24 buds are now about to open.

Coordinating Body Gets Suggestion For Township Calendar

CENTERVILLE — One of the most practical suggestions made at the Coordinating Council at the Washington Union High School in response to a question by Principal A. J. Rathbone as to what the council should do next year was that for a community calendar made by W. T. Lindsay, Boy Scout executive.

"Recognizing the full schedule and the manyness of activities of our young people, I suggest that this Coordinating Council, as one of it's next year's objectives, develop a township calendar of young peoples' activities.

"This could be accomplished by getting the cooperation of various agencies such as Churches, High School and Grammar Schools, boys and girls' organizations such as Campfire, Girl Scouts, Boy Scouts, Rainbow Girls etc. It could be set up in skeleton at the start of the school term and filled in as activities developed.

"I believe it would cut down confilcts, build better loyalties and conserve the health and strength of the youngsters."

The suggestion was received enthusiastically by all members of the council and it is expected that such a calendar will be made up next Fall to assist all organizations planning events to take place in the township.

Other suggestions included increase of efforts toward finding employment for high school students and graduates, continuance of efforts to have speech defects of students in the township corrected, more health work and medical attention for students, greater stress on character-building by teachers, etc.

A demonstration meeting of the Student Council was held for the benefit of the Coordinating Council with George Mathiesen, presiding. An explanaton of the Student Body budget which handles about $14,000 a year was given by Dora Gastelum, treasurer.

That the coordinating council assist with efforts to secure a swimming pool for the high school was suggested by the students.

The meeting was preceded by a surprise shower for Deputy District Attorney Joe Schenone whose marriage is to take place next Fall. The lucky lady's name was not mentioned as formal announcement was to be made later. The cleverest gift presented to Schenone was wrapped with a card stating "How to Keep Husbands at Home." It developed to be a door lock, presented by Judge Allen G. Norris. The judge said it was his wife's idea.

Senior Class Play Wins Acclaim During Dual Performances

CENTERVILLE—Acclaimed the best play yet put on by the Seniors of Washington Union High School, "Big-Hearted Herbert" was heartily applauded at is production last week under the direction of Jack Rees.

Unusual ability was shown by Lesly Stuart who played the part of the patient mother and wife of the grouchy husband depicted by Paul Rivers. John Dusterberry, the high school son who had the backbone to stand up for his own convictions and Robert, a younger brother who could see through his father's gruffness played by Melvin Callahan were also excellent.

Pretty and clever enough to merit the lead in any production, Donna Clark played the daughter in the romantic role with George Mathiesen and Dorothy Escobar in the part of the good-natured Irish maid added her share of laughs to the program.

Others who supported the leads were Katherine Lewis, Jim Emerson, Thomas Santos, Audrey Silva, Jack Scott and Thelma Silva.

Music between scenes was by the high school orchestra under the direction of Dwight Thornburg. The play, a clever comedy-farce by Sophie Kerr and Anna Steese Richardson was given through special arrangement with Samuel French.

Of this total, several were outstanding students for various reasons. Heading the list of day pupils was John Dusterberry distinguished as the most outstanding all round student and citizen of the class.

Editor-in-chief of the Hatchet, member of the Senior play cast, one of the two student speakers on the program, and active in all undertakings of his class for the past four years, John won the $25 cash award in the Durham essay contest, life membership in the California Scholarship Federation and a perfect attendance reward. Secretary A. J. Petsche was instructed to communicate with Supervisor George Hellwig regarding the placing of the name of Niles on the highway sign at the Warm Springs Y.

Future Farmers Will Exhibit At County Fair At Pleasanton

CENTERVILLE — Plans for the Alameda County Fair to be held at Pleasanton, Aug. 10-13, will be among the first duties of newly elected officers of the Washington Chapter of Future Farmers.

New officers of Washington Chapter are as follows: Anthony Pine of Alvarado, president; Joe Bettencourt, Alviso, vice president; John Ura of Mission San Jose, secretary; Mervin Telles of Mission San Jose, treasurer; Roy Rose of Niles, reporter and James Laudenschlager of Newark, athletic manager.

A new system was adopted in elections this year, each candidate being asked to present a petition signed by ten Future Farmers. An average grade of "C" had to be attained in high school subjects for the candidates to be eligible.

Traditional Story Of American Flag Recited For Club

CENTERVILLE — Warren E. Gravestock of the Washington Union High School was the speaker at Tuesday's meeting of the Country Club. He discussed the flag of the United States, its origin, progress and some of the federal statutes regarding it.

The story of Betsy Ross and the flag has no historic foundation, Mr. Gravestock said, but is only one of several traditional stories regarding the Stars and Stripes. He illustrated his talk with pictures of flags made by the art department of the high school.

Mrs. C. E. Anderson presided in the absence of Mrs. E. A. Ellsworth. Reports of recent conventions were made by Mrs. Roland Bendel. Mrs. C. E. Martenstein, Mrs. R. L. Pond, Mrs. Frank T. Dusterberry, Mrs. Howard Chadbourne, Mrs. Robert Anderson and Mrs. G. Williamson.

Sanitary District Annexation Will Be Up At July Session

NILES — Although 49 residents of the north section of Niles signed a petition to be annexed to the Decoto Sanitary System, none of them were present at the meeting at the Decoto Fire Hall Monday night when the matter was discussed.

George Smith, commissioner of the Decoto district, expressed a favorable attitude toward the annexation on the grounds that it would cut down the overhead of maintaining the $100,000 system now under construction. Opposition to the annexation was expressed by William Hurst, commissioner; Pete Decoto and Frank Rebelle, among the 16 Decoto residents present. Opposition was on the grounds that the system might be over loaded, worn out or be more expensive with the additional service.

R. E. Ramseier of Hayward, resident engineer for the construction job, said the plant had been designed to care for double its anticipated load and was so constructed that additions could be made at small expense. A letter from Harold Gray, consultant engineer, strongly recommended the annexation.

Gray's letter gave an estimated total cost of $63,260 to serve the new territory. With an anticipated $45,000 PWA grant this would be reduced to $34,800 to be paid with a bond issue in the new district. Taxes there would be about $1.45 for the first year and diminish to less than 70 cents in 1960.

No action was taken by the board and the next regular meeting was called for July 5. J. P. Calderia, chairman, expressed a neutral position on the subject of annexation.

Upon complaint of some of the residents that "y's" were not being placed at each lot as the main sewer lines are being laid, the board announced a policy that these connections would be placed only at occupied lots or lots which are expected to be occupied in the near future. It was explained that it would be cheaper to install shoulders on the main line later when needed.

An unofficial estimate of the cost of connecting to the main lines was placed at a maximum of about $45 where the main line is about 15 feet deep, plus approximately 50 cents per foot from the property line to the building.

George Smith was made secretary pro-tem in the absence of Charles Brown who is visiting in the East.

COMMENCEMENT

From the high school and grammar schools of the township, a host of young Americans come marching forth this Commencement, most of them eager, some of them a bit skeptical, a few of them—and thankfully only a few—with colors already hoisted aloft in surrender to disillusionment.

Young America of 1939 will be told, as yesterday's youth was told, that it is the hope of the world. And young America of 1939 will smile, as yesterday's youth did, at such grandiose language. But let youth smile! Whether it agrees or not, it IS the hope of the world, for it IS tomorrow's world—its workers, scientists, teachers, statesmen and businessmen.

Do young Americans think an older generation has made a mess of things because they enter a world where threats of war and insecurity persist? If so, young America of 1939 will soon be at the the helm itself with a chance to prove its mettle. The unfinished business which lies before this nation offers youth virtually inexhaustible opportunity to prove itself.

Thomas J. Watson, nationally known business leader, only recently cited some of these big unfinished jobs. Much remains to be done in raising the nation's health standard and eliminating slums. With the country in need of five million new dwellings, clearly the housing problem has barely been touched. Today 65 per cent of industry's tools are obsolete and industrial operations are still 20 per cent under-electrified.

The vast amount of unfinished business in all these fields—science, research, communication, international trade, finance, education, and the arts, to mention only a few—offer opportunities for personal effort that will further mankind's welfare.

The possibilities in these new frontiers of progress have yet been scarcely tapped. That is America's need and America's challenge to youth.

JOINT HOSTESSES

MISSION SAN JOSE — Mrs. Michael Overacker, new president of Losetra, young matrons group of the Newark Presbyterian church, and Mrs. Howard Overacker were joint hostesses at a meeting of the organization at the Overacker ranch here last week. Plans were made for the coming year. A shower was given for Mrs. T. J. Nordvik, retiring president.

NEW FAST 1939 ELECTRIC RANGE combines LOW COST, SPEED, SURE RESULTS

Although thousands of electric range users in California know the reasonable low cost of electric cooking, a recent survey proved that guesses of those who did not know—averaged *twice* the actual cost.

Electric cooking is really economical cooking. Present low electric rates, highly perfected new heating elements in modern electric ranges, heavily insulated ovens that conserve heat, exact heat measurement at the snap of a switch which keeps current use down to a minimum—all contribute to the low cost of electric range operation.

Have you guessed an electric range is SLOW?

Guess again. All of the 1939 Electric Ranges are completely equipped with Speed Units. These Speed Units are so fast and so intensely hot you will only use them for brief High Heat cooking periods. Most of your cooking will be done on money-saving Low Heat.

Have you guessed that electric cooking is DIFFICULT?

Guess again. Electric ranges simplify cooking because of the miraculous automatic controls. Oven meals almost cook themselves.

Have you guessed that electric cooking is EXPENSIVE?

Guess again. Electric Cooking costs have been dropping steadily downward. One reason is that the electric rate for cooking is now very low. Another reason is that the NEW Electric Ranges use much less electricity. $2.58 is the average monthly cost for cooking with 42,000 electric range users.

Come in today and see the new 1939 Electric Ranges. Prices are low and purchase terms exceptionally easy.
